Full Stack Developer

- Developer-specified Macbook Pro hardware, and the equipment to use it most effectively
- 'Dress for your day' dress code policy
- A strong culture that supports diversity and inclusion

About Us

EnergyAustralia provides smart, innovative energy solutions for more than 1.7 million customers. To enable our customers to engage with us more effectively, we're growing our internal team of front-end, back-end, and full-stack developers to help us expand our digital capability and deliver easy and effortless digital experiences.

About the team

The team is a cross-functional blend of front end, back end and full-stack developers, who manage and own their applications from cloud infrastructure and services to CSS and design. Each team also has UI/UX, BA, Testers and Scrum Masters to support delivery.

The role

You will be writing front and back end code for high-quality digital solutions to enhance our customer experience. As part of these builds, we have experimented and innovated using technology including OpenIDConnect, Docker, Fargate, Serverless/Lambda, Angular 8 and reactive programming including NgRX. This is a collaborative environment where we work to the Agile principles, focusing on our customer and evaluating our backlog of work including our technical debt for value.

Our tech stack includes (but isn't limited to):

- Java 8-11
- NodeJS
- Microservices delivered using S3, Fargate, Kubernetes and Lambda
- Jenkins,
- Github,
- Angular, NativeScript
- JavaScript / TypeScript
- AWS - built using CodeDeploy and CloudFormation.

What we're looking for:

To be successful in this role and environment, you be passionate about your work and delivering outcomes for the customer and the business. You thrive in a team environment and contribute to the culture in a positive and meaningful way. In addition, you will have:

- Experience as a Developer in several of the above languages/platforms
- Demonstrated experience in a complex environment (similar scale would be ideal)
- Strong communication skills and the ability to effectively work with stakeholders at all levels
- Experience in Agile environments

Why Us?

At EnergyAustralia, we are committed to providing an inclusive culture so our employees can bring their whole selves to work and have a sense of belonging. Some of our additional benefits include:

- A generous paid parental leave policy
- Discounted Gas & Electricity through our Employee Energy Plan
- Generous discounts via our employee benefits program (travel, entertainment & shopping)
- The opportunity to make a difference through volunteering and workplace giving

How to Apply

If this is the role for you, click the 'Apply' button to submit your application. For a confidential discussion, please contact Sarah Vile on sarah.vile@energyaustralia.com.au

Applications will close on Wednesday 25th September.

We're committed to providing an inclusive culture so our employees can bring their whole selves to work and have a sense of belonging. From our PRISM network that creates a positive culture for LGBTI employees to our Reconciliation Action Plan that has commitments to strengthen relationships with Aboriginal and Torres Strait Islander people and organisations, it's a workplace where everyone's welcome.

EnergyAustralia is building an inclusive culture. Our employees can bring their whole selves to work and have a sense of belonging.
